

Skill Development Drills

This class is a hand-on class that takes place on the range. The instructor will take you through a series of shooting drills. The drills will focus on drawing from your holster, proper extension, lateral movement (moving of the X), working from the ready position, and working on your balance of speed and precision. You will also discuss deviation control and the factors that affect deviation. This is a live fire class.

Time: 8:00 am (This class is approximately 4 hours long)

Location: 509 Toms Creek Road, Hopkins, SC 29061

Course objectives:

- Improving your drawing
- Improving your grip/proper extension
- Improving your target acquisition
- Improving your firearm manipulation
- Understanding moving off the “X”
- Understanding the balance of speed and precision
- Understanding deviation control and what affects it

Required items:

- Your personal firearm (or rent one from me for \$5.00)
- Ammunition - 50 rounds of Full Metal Jacket (FMJ)
- If you rent a gun from me, you will need 9mm FMJ
