

## Basic and Advanced Skills

---

This class will cover a number of basic and advanced skills to take your defensive shooting skill level beyond the building blocks presented in the “Defensive Shooting Fundamentals (Mini)” course. Particular emphasis will be on attaining a balance between speed and accuracy as well as shooting live from the holster. After the classroom presentation, conduct range exercises / drills that illustrate principles taught in the classroom. This class meets the training requirements for the USCCA Protector Academy Qualification. This is a live fire class.

**Time:** 8:00 am (Check calendar for date of class)
